📅 07/03/1996

## Profile

An innovative and results-driven professional with 6 years of experience in automation and functional QA. Proficient in developing test scripts using Selenium with Java and implementing data-driven and page objects Model (POM) frameworks. Experienced in mobile automation using Appium, I am a strong team player, equally capable of functioning as a sole contributor in automation teams. A self-motivated and disciplined individual, I am continually seeking to enhance my expertise and expand my opportunities within the field of automation testing.

## Professional Experience

08/2022 – present  
Bangalore

### Senior QA Engineer

*OpenText*

- Gained expertise in mobile testing and automation, taking full ownership of both manual testing and automating test scenarios using **Appium Java** for mobile applications.
- Experienced in mobile automation, with a focus on **Android**, and a strong knowledge of **iOS automation**, with a keen interest in expanding to iOS platforms.
- Extensive experience in **API testing**, ensuring backend functionality and performance.
- Gained knowledge of **client-server architecture** in product development, with hands-on experience in testing both sides.
- Hands-on experience with **Azure** by running scripts provided by developers to generate apps, which were used to integrate with the mobile app of the product, **MS Teams, MS Office, Office 365, and Zero Footprint**. Involved in integration testing of these features, including the setup and configuration processes.
- Involved in complex integration setups, such as implementing **Azure OpenID Authentication** for seamless integration workflows.
- Led the migration of the mobile automation framework from **Appium 1.0** to **Appium 2.0**, improving testing efficiency.
- Experienced in working with **Selenium Java** for automating **ZFP Office** and **Outlook** testing, ensuring seamless functionality across different platforms.
- Experienced in working within **Agile methodology**, contributing to sprint planning, test strategy, and test case design as part of the test planning process.
- Actively contributed to multiple releases by conducting **system testing, regression testing, security testing, upgrade testing, integration testing, and language testing** to ensure the delivery of a high-quality product.
- Identified and reported **300+ valid bugs** during Mobile App Testing, earning the "**Mobile Champion Award**" in recognition of my contributions.

02/2022 – 08/2022  
Bangalore

### Test Architecture Eng. Senior Analyst

*Accenture*

- I worked for a short-term project where we had used **Eggplant Functional Tool** for Automation, and I had been a major addition to this team as I dealt with the major development took place within the team.

- Participated in all the leadership and client meetings to keep them updated on the status of the project.
- Eggplant Functional Tool is an image and text-based automation tool.
- Took the responsibility of the entire team of 7 resources and set up the project with all the necessary steps to follow on a daily basis to be organized as a team.
- I took the requirements from the clients, did test design, and automated the same test scripts.
- We worked in Agile methodology.
- I had received an award for my performance in the individual category named "**Pinnacle Award—Game Changer**".

12/2019 – 02/2022  
Bangalore

### **Test Architecture Eng. Analyst.**

*Accenture*

- Experience in Information Technology, specializing in **Software Quality Assurance Testing**, proficient in testing on client/server and web-based applications, and good experience on **Core Java and OOPS** concepts.
- Experience in using test automation tools like **Selenium WebDriver** and developing automation testing scripts for web and client server applications.
- Experience with Web and Mobile Automation using the **Appium** tool with the **BDD** framework and WebDriver.
- Sound knowledge on the **TestNG framework** for SIT testing, **Maven** for project building tools, and **Jenkins** for continuous integration.
- Assisted a senior in designing and documenting **API testing**.
- Good knowledge on the **object-oriented programming (OOP)** concept. Extensively used Java for test case automation. Experience in implementing the **page object model**.
- I was a single contributor in an automation team with good experience in **BDD**-style automation test frameworks using **Node.js** and developed test scripts using feature files.

09/2018 – 12/2019  
Bangalore

### **QA Manual and Automation Tester**

*Accenture*

- Experience in **Test design** and **Test execution** activity for every release.
- Extensive working experience in all phases of the **Software Development Life Cycle (SDLC)** and its methodologies, such as **Agile and SCRUM**.
- Perform manual and automated testing, including running automated scripts, executing manual test cases, reviewing test results, logging any issues in the defect tracking system, and verifying defect resolutions for the assigned project.
- **Refactoring** of the automated test scripts needed for regression.
- **Updated test plans** and **test cases** periodically to manage changes in requirements.
- Executed test cases and logged defects in **Octane** and **Jira**.
- Experience in reviewing and analyzing business requirements and creating **test plans, test cases, and test scripts**.
- Interacted closely with developers regarding defects and participated in **tracking, reviewing, and analyzing bugs**.

## Skills

Selenium WebDriver	Java
TestNG	Jenkins
Maven	Appium
GitHub	API Testing
XPath	WebdriverIO
Eclipse	Agile
Octane	Jira
Eggplant Functional	Test design
Cucumber	

## Awards

18/04/2022	<b>FY'22 H1 PINNACLE Game Changer Award</b> <i>Accenture</i> Swetha is one of the building blocks for the project, which has high client visibility due to its uniqueness. Her skills on the eggplant automation tool and knowledge of the application have helped the team deliver on time and with quality. She is one of the team members who is churning out the highest number of new builds and refactoring scripts, which really helped the team get back on track with the plan. She is always keen on learning new things and having things clarified.
